## Preparing the booklet

Committee of teaching Staff Members, Teaching Assistants and Scientific Research

## introduction

**We are pleased to present this comprehensive brochure that sheds light on the Architecture Department at our esteemed institute. Our Architecture Department represents the intersection of creativity and knowledge, aiming to equip students with the necessary skills to become innovative and influential architectural engineers in their field. Our department houses specialized and distinguished faculty members who possess deep expertise and knowledge in various areas of architecture. They passionately share their expertise and inspiration with students, guiding them toward a profound understanding of engineering concepts and practical applications in the architectural world. In addition to the institute's faculty members, the support team actively contributes to providing excellent education and technical assistance to students. These dedicated professionals work hand in hand with students to ensure a rich and fruitful educational experience. We invite you to explore this brochure to acquaint yourselves with the faculty and assistant staff in the Architecture Department. They are an integral part of your educational journey and will always be ready to support and inspire you in achieving your academic and professional goals.**
